TPC SCOTTSDALE PGA STADIUM

Your laser gives distance. This book gives the rest.

1 LASER THE FLAG, ADD THE ORANGE NUMBER

Each hole page has chips like **150 −3** on the fairway. A 150 laser from there plays 147, slope and altitude counted.

2 PLAY THE NUMBERED SHOTS

Each shot starts at its black chip and lands in its oval, where most swings finish. Green oval: clear. Amber to red: trouble.

3 START IT DOWN A LINE

Two lines run to the oval's edges. Fade: start it down the left line. Draw: down the right line.

4 OFF THE TEE, READ THE RIGHT-HAND RULER

Yards from the book's tee; bars mark hazards. CARRY counts from the shot that clears it. Most other tees: yards to shot 1.

5 ON THE GREEN, PICK YOUR MISS

Dots: green safe, amber care, red avoid. WHERE TO MISS names the BEST MISS and why. Tiers: land on the pin's level. Pin position can change the best miss — don't short-side yourself.

GREEN COLOURS

Darker is higher ground. Thicker arrows are steeper, pointing downhill. Hatched orange is 4%+: on fast greens, no-go above the hole.

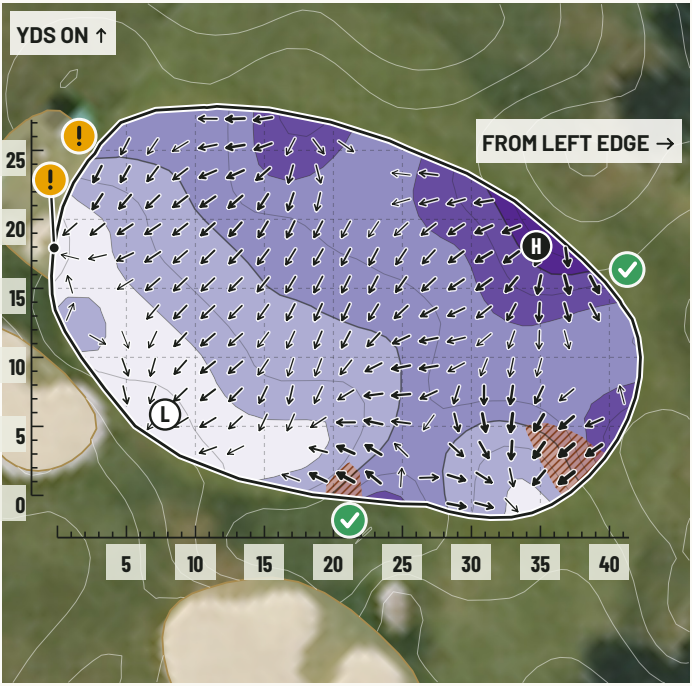

TOURNAMENT USE

Made before the round: slope and altitude on paper, distance from your device. Greens print at 1:501 to 1:549 (limit 1:480). Our reading of Rule 4.3, not a ruling: check Local Rules (G-5, G-11).
